Dear Mr. Munson:

On behalf of KJAY, LLC and at your request, I am writing to confirm that the licensee's station KJAY (AM) became CAP compliant on June 20, 2017. The EAS console is a "TFT EAS 911," Gorman Redlich Mfg. Co. CAP-Dec 1 converter unit.

Previously the local area had no usable internet connection. The station was able to establish a connection, using Sprint Pocket WiFi 306ZT, augmented by a Netgear N600 wifi range extender, Model WN2500RP. As soon as this connection was enabled, on June 20, the EAS system was activated.

According, waiver of the EAS implentation requirement has not been necessary since June 20, 2017, and no longer is required.

Any questions with respect to this matter should be directed to the undersigned.

Respectfully submitted,

Michael Couzens,
Attorney for KJAY, LLC
